

# Professional Growth Books 2004

The North American Division of Education is happy to bring to you the annual listing of the Professional Growth Books. Some of these books are from non-Adventist authors and, therefore, may not fully reflect Seventh-day Adventist philosophy. However, we believe there is value in these books which have been selected to inspire, bring insight, and challenge your thinking.

To secure a Professional Growth Certificate for the 2003-2004 school year, you should read the five issues of the *Journal of Adventist Education*, at least one book from Group B, and four additional books from two other headings. Some books have been listed under two headings and will count for either group. Books under the heading READER'S CHOICE have been recommended by individuals who were asked to select a book that has impacted their lives in some way. One book of your choice which could be classified under one of these headings may be substituted for a book on this list.
